Solimpeks is The World’s Leading Manufacturer of Hot Water Storage Tanks, Heat Pumps, Solar Water Heaters and PV-T Hybrid Collectors.

Solimpeks, with more than 40 years of experience has been developing and manufacturing renewable heating products.
MILESTONES

- First production of solar water heaters in Turkey: 1977
- Market leader of Turkey in solar heating industry: 1993
- Production of hygienic domestic hot water tanks: 1998
MILESTONES

- **2001**: Foundation of Solimpeks brand for global markets
- **2008**: Awarded PV-Thermal Hybrid Panel production
- **2009**: Solimpeks landed in top 10 global solar thermal companies
Establishment of Solimpeks Germany

2010

Establishment of Solimpeks Academy

2013

SOLIMPEKS
Solarenergie GmbH

2011

Moving to new factory. 28,000 sqm open and 8000 sqm closed.

SOLIMPEKS
ACADEMY
MILESTONES

- Production of flexible pipes
- Production of heat pumps

2014

The Exporter Without Border Prize

2017

Solimpeks in top 3 among solar water heater manufacturers

2018
**MILESTONES**

- **2020**: New production lines for DHW tanks

- **2022**: Expansion in enamel tank production

- **2023**: Second factory dedicated to enamel tanks, 22,000 m² closed
The most global renewable heating company of the world.
Active in more than 70 countries on 6 continents.
Market leader in over 10 countries.
More than 100% growth in the last three years.
More than 300 employees in 4 locations.
At Solimpeks we offer a variety of educational opportunities and resources for engineers, designers, contractors, technicians, installers and students. We have developed a wealth of print, video and software resources that provide in-depth information and training on a numerous topics from basic renewable heating design and operation, to detailed technical papers of the products.
Over the years, Solimpeks R&D team has worked with the best partners. Correct analysis, the right research approach and qualified employees make Solimpeks' innovations successful. The generation of heat from renewable sources is a new challenge for the new world. In this regard, we try to provide the availability of reliable, efficient and affordable technology.
Solimpeks manufacturers renewable heating products that are based on defined technology platforms that are produced at a coordinated industrialisation rate. From robotised production systems with a high level of automation to custom-made, project-specific products: all our products are manufactured in line with industry quality standards. At Solimpeks outdoor test bench the solar heaters and storage tanks are subject to extreme climate conditions and endurance tests. More than enough tests of the overall system's compounds are strictly applied at the end.
