SOLIMPEKS
Renewable Heating

COMPANY PROFILE **(01)**

WHERE INNOVATION MEETS SUSTAINABILITY

PIONEERING RENEWABLE HEATING SOLUTIONS SINCE 2001

Solimpeks began in Konya in 2001 with solar thermal collector production. Since then, it has grown into a top renewable heating company, pioneering the world's first PV-Thermal hybrid panel, expanding manufacturing to nearly 48,000 m^2, and delivering sustainable heating solutions to over 70 countries.

EXPORT TO MORE THAN 70 COUNTRIES AND 6 CONTINENTS

Solimpeks began in Konya in 2001 with solar thermal collector production and quickly expanded into Germany, Australia, New Zealand and North America by 2004. By 2007 it led markets in North Africa and the Middle East, and in 2008 launched the world's first **PV-Thermal hybrid panel.** Rapid growth continued—top-ten in Europe's renewable-heating sector, Turkey's largest solar exporter, major facility expansions and new enamel-boiler and heat-pump production in 2025. Today, with nearly **48.000 m²** of manufacturing space and exports to over 70 countries, Solimpeks delivers cutting-edge, sustainable renewable heating solutions worldwide.

INNOVATIVE PRODUCTION APPROACH

PRIVATE LABEL

GLOBAL PRESENCE & REFERENCE PROJECTS

- Active in 70 countries across 6 continents
- Market leadership in Türkiye with over 200 dealers
- Among the world's top 5 renewable heating manufacturers

As Solimpeks, we have completed hundreds of thousands of projects with thousands of installers all over the world. We continue to sign agreements with our quality and assurance standards.

Establishment

2001

Solimpeks established in Konya, Türkiye

Manufacturing

2001

First solar thermal collector production

Achievement

2002

Entry into the Germany, Australia, and New Zealand markets

Achievement

2004

Expansion into the North American market

Manufacturing

2004

First solar water heater tank production

Achievement

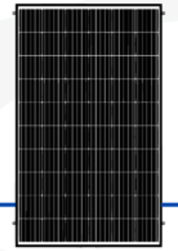

2007

Became market leader in North Africa and the Middle East

Innovation

2008

Designed and produced the world's first PV-T product

Know-How

2008

Kenya: From design to manufacturing

Establishment

2012

Türkiye: Dealer and Service Network Setup Initiated

Establishment

2011

Founded Solimpeks Engineering Ltd. in İzmir, Türkiye

Expansion

2011

Moved from an 8,000 m² factory to a 28,000 m² facility

Establishment

2010

Germany: Established a hub in Europe

Achievement

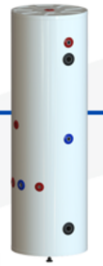

2010

Recorded a 113 % growth rate

Manufacturing

2009

Hygienic boilers for heat pumps production

Achievement

2009

Became Türkiye's largest exporter of solar thermal collectors

Achievement

2009

Ranked in Europe's Top 10 in renewable heating.

Manufacturing

2013

Commissioned the flexible stainless steel pipe production line

Manufacturing

2014

Commissioned the air-to-water residential heat pump production line

Expansion

2015

Doubled solar thermal collector manufacturing capacity

Achievement

2016

Became Türkiye's largest renewable heating brand

Award

2017

Received the Turkish Exporters Assembly's "Champion Without Borders" Special Award

Know-How

2017

Uzbekistan: From design to manufacturing

Award

2018

Won the Climate Industry Exporters Association's "Qualified Product" award

Achievement

2018

Ranked in Europe's Top 3 Solar Thermal Manufacturers

Manufacturing

2025

Launched a new DHW heat pump / pool heat pump production line

Manufacturing

2025

Launched Industry 4.0 enamel boiler production line

Achievement

2024

Built Türkiye's most extensive heat pump distribution network and service

Expansion

2023

Opened an additional factory, bringing total manufacturing space to 48,000 m²

Manufacturing

2022

Launched stainless steel buffer production line

Manufacturing

2020

Launched a new DHW tank production line

Achievement

2019

Exported to 70 different countries

HISTORY & MILESTONES (01)

Solimpeks Türkiye

Since 2011, Solimpeks has been operating its activities in Turkey under Solimpeks Engineering and Marketing Inc., headquartered in Izmir. Today, with a network of more than 200 dealers and service partners, it is one of the strongest heating companies in the local market.

WHERE INNOVATION TAKES SHAPE

HIGH PRODUCTION CAPACITY WITH ROBOTIC PRODUCTION PRECISION AT GLOBAL STANDARDS

Our innovative and highly efficient heating solutions are designed to address today's and tomorrow's energy challenges and provide sustainable and cutting-edge solutions. We continue to research and develop for the better.

R&D AND INNOVATION (01)

- Solimpeks Academy: 100+ training programs for engineers & technicians
- Academic partnerships and patented PV-Thermal technology
- Annual R&D investment: 5 % of turnover

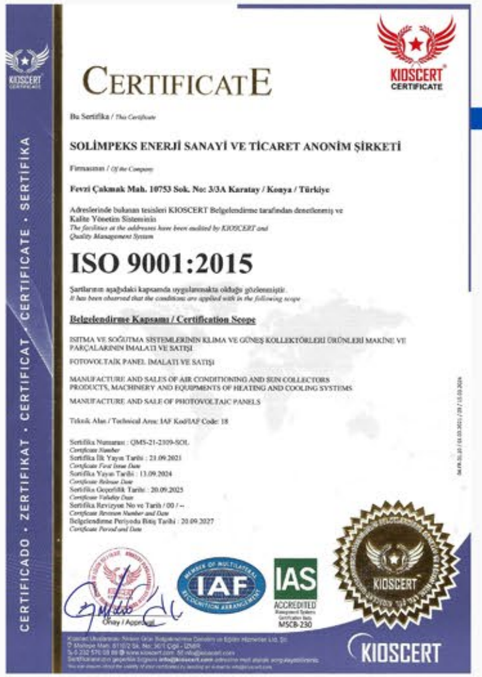

GLOBAL STANDARDS, UNMATCHED QUALITY

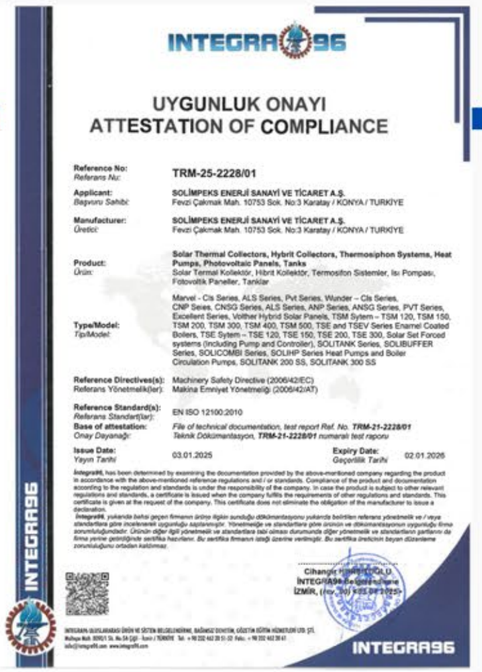

- TSE-V enameled-tank standard
- Projects reducing carbon footprint by 30 %

ISO 9001, ISO 14001, CE

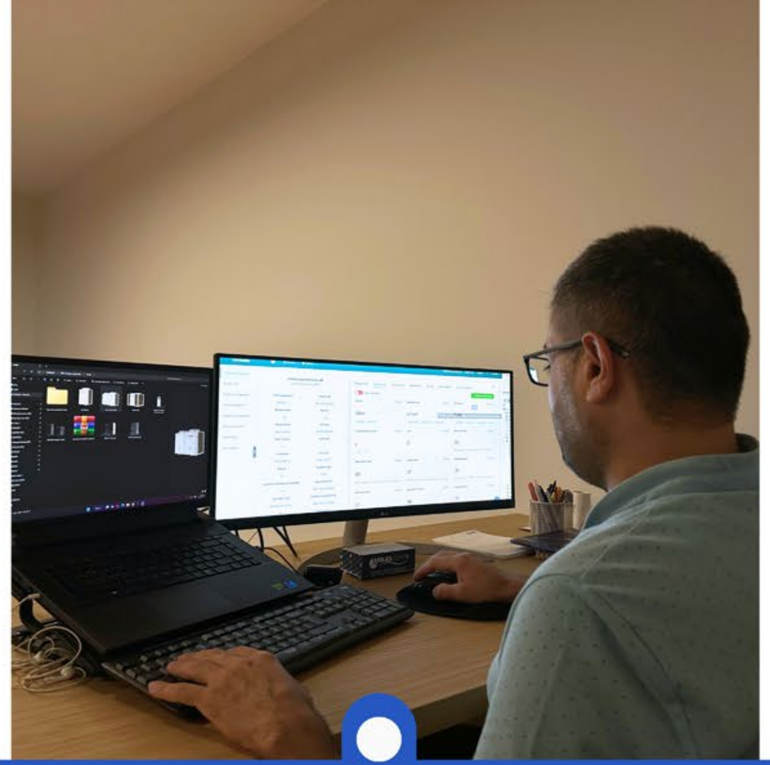

Solimpeks holds internationally recognized certifications, including ISO, CE, and Solar Keymark, reflecting our commitment to high-quality manufacturing, environmental responsibility, safety, and customer satisfaction. Our products meet the strictest global standards in renewable heating solutions.

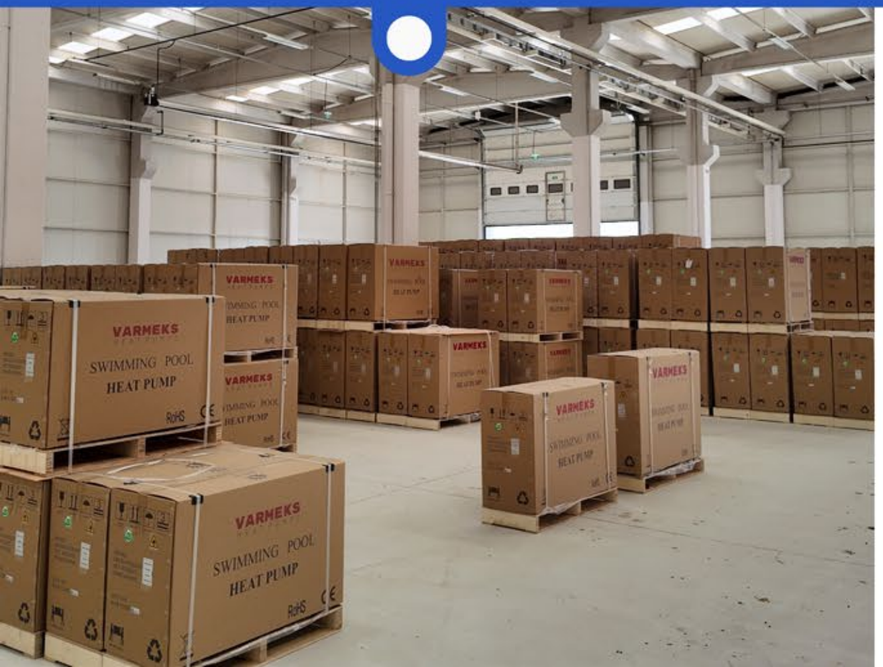

B2B Supply & Logistics

Flexible payment terms, rapid delivery

Training & Consultancy

Project design, installation and operation training

After-Sales Support

24/7 technical assistance, spare-parts availability

THANK YOU!

At Solimpeks we offer a variety of educational opportunities and resources for engineers, designers, contractors, technicians,installers and students.

END COVER
